AUTUMN 2026

A season to plant, prepare and look ahead

WESTMILL GARDEN CENTRE & NURSERY

Ware, Hertfordshire

WELCOME

Autumn at Westmill

During September, we'll be making some improvements to the frontage of Westmill Garden Centre. We apologise for any disruption while the work is underway and thank all our customers for your patience and understanding. We really look forward to showing you all the changes.

Get your garden ready for autumn

As summer draws to a close, the garden takes on a beautiful new season of colour. Autumn is one of the best times to get planting, prepare your garden for winter and start thinking ahead to next spring.

Here at Westmill Garden Centre and Nursery, we have everything you need to make the most of the season.

Autumn planting

Autumn is a great time to plant trees, shrubs, hedging, fruit trees and perennials. The soil is still warm while the cooler, damper weather helps newly planted plants establish their roots.

Why not refresh a tired border or add some new structure and colour to your garden?

Autumn jobs in the garden

There is still plenty to do:

- Clear fallen leaves from lawns and paths
- Give lawns some autumn care and repair worn areas
- Divide and move established perennials where needed
- Plant spring bulbs
- Add compost or well-rotted organic matter to your borders
- Protect tender plants as cooler weather approaches
- Reseed any bare patches on your lawn. Grass germinates down to 6 degrees
- Keep planting and don't be afraid of a little autumn rain!

Lawn care for the cooler months

A little autumn care now will help your garden through winter and give it a stronger start next spring.

Keep the colour going

Don't think the garden has to lose its colour just because summer is over!

Add seasonal interest with heathers, pansies, violas, cyclamen, ornamental grasses and other autumn and winter plants. Perfect for pots, containers, hanging baskets and borders.

FROM OUR NURSERY

Grown with care at Westmill

We are proud to continue growing plants here at Westmill Garden Centre and Nursery.

Our own-grown plants are raised with care and are selected by Adrian to provide colour and interest throughout the season.

Pop in and see what's looking good this Autumn - you may just find the plant you've been looking for.

Plants grown here. Seasonal colour selected with care.

Think spring - plant your bulbs now!

Spring may seem a long way off, but now is the perfect time to plant spring flowering bulbs.

Choose from favourites such as daffodils, tulips and crocuses and look forward to a beautiful display next year. Planting bulbs through autumn is one of the easiest ways to add colour to your garden when spring arrives.

SPRING STARTS IN AUTUMN

Westmill Landscaping

Professional help for your outdoor space

Alongside the Garden Centre, our sister landscaping company offers a professional service to help you make more of your outdoor space. From advice on garden design and planting through to complete landscaping projects, the team can help turn your ideas into reality.

Being based here at Westmill means the landscaping and garden centre teams can work closely together, combining practical expertise with access to quality plants and landscaping materials.
